OktoPOS Cash - Easy to use EPOS touch screen cash register with plenty of optional configurations.

OktoPOS Cash is a POS System that features fully integrated electronic menu cards. OktoPOS connects with Oracle Hospitality solutions.

Company Overview

OktoPOS is a one-stop store management solution for restaurants and retail shops. The company is headquartered in Germany and the software is licensed internationally.

Integration Overview

OktoPOS Cash POS terminals are integrated with Oracle hospitality solutions for billing hotel guest sales on rooms.

Briefly highlight the integration of your company's product with the Oracle application. This section's content typically comes from your company's Technical Integration Overview, and it describes the integration architecture, primary data flows and touch points.

Integration Details

The integration allows for the following:

- Send Inquiries to Oracle PMS to check room occupancy.
Inquiries can be done by: Room number, Guest name or Track2 data (Keycard ID).
- Send room postings to Oracle PMS.
- Send Cash or Credit card postings to Oracle PMS.
- Ability to handle "NoPost" flag and "CreditLimit" received from the PMS.
- Credit Limit Override function supported; allowing a POS manager to override any credit limit setup on the PMS.
- Handles individual postings for each occupant in the room.
- Posting of covers.
- Void of a previous posting.
